INSTITUTO OCEANOGRÁFICO
UNIVERSIDADE DE SÃO PAULO

Cátedra UNESCO para a Sustentabilidade do Oceano

São Paulo, July 31st, 2026

Of. AT-DOB 26-048

Ref.: Institutional support for Thalagraph Studio.

To whom it may concern,

The **UNESCO Chair for Ocean Sustainability** is dedicated to advancing education, research, and action for ocean sustainability, in line with UNESCO principles and the United Nations 2030 Agenda. In this capacity, we express our **institutional support for Thalagraph Studio** and its editorial project ***Ocean Chronicles***.

Ocean Chronicles documents marine life and coastal and ocean ecosystems with aesthetic sensibility and narrative rigor. By bringing audiences closer to the richness and fragility of the ocean, it contributes directly to **environmental awareness** and **ocean literacy** — dimensions essential to ocean sustainability.

We recognize in the work of Thalagraph Studio a strong alignment with **Sustainable Development Goal 14 (Life Below Water)** and with the aims of the **UN Decade of Ocean Science for Sustainable Development (2021–2030)**, proclaimed by UNESCO.

Accordingly, the **UNESCO Chair for Ocean Sustainability** declares its **institutional support** for Thalagraph Studio and remains available to accompany and endorse its initiatives, within the scope of its mission and competencies. This support reflects our recognition of the value of the work and does not, in itself, entail any financial commitment or operational responsibility.

Sincerely,

Prof. Dr. Alexander Turra

Full Professor
Oceanographic Institute, University of São Paulo
Coordinator of the UNESCO Chair for Ocean Sustainability
